

MOTOROLA blnc™

BLUE TOOTH® CAR KIT IHF1000

Get ready to communicate on the go like never before. Motorola's blnc IHF1000 car kit is an innovative Bluetooth solution which will change the way you talk while you are in your car. Using your compatible Bluetooth "Hands-Free Profile" enabled mobile phone¹ with the blnc IHF1000 car kit, your in-vehicle communication experience is about to go to the next level.

➤ Core Features

Just touch the blue button and the blnc IHF1000 car kit will listen to your command and make calls for you. The system's brilliant sound quality with noise reduction and high output sound optimizes sound quality for all parties in conference. With the voice operated control features and high performance audio, you are in the driver's seat.

The stylish, backlit controller with its chrome-brushed finish mounts within easy reach on the dashboard. The simple voice menu prompts and the controller make it easy to:

- Pair compatible Bluetooth enabled mobile phones
- Answer incoming calls
- Mute and un-mute calls
- Dial by name with up to 20 locally stored contacts
- Dial by number
- Dial by the mobile phone keypad
- Request system help

Multiple Languages

The system also supports voice recognition in multiple languages including English (US and UK), French (EU), Spanish, Italian and German. So, regardless of who is doing the talking, or in what language, there is no need to "train" the system.

One Car – Multiple Drivers

Multiple people can enjoy the blnc IHF1000 car kit. Up to four compatible Bluetooth enabled mobile phones can be paired to the system with one connected at a time.

➤ Advanced Phone-Dependent Features²

In addition to the system's core features, the blnc IHF1000 makes communicating while you're on the go more fun than ever. The voice operated system and the controller, allow you to:

- Make calls using voice tags or name dial (as many as the mobile phone supports)
- Redial the last number or transfer in and out of privacy mode
- Accept or reject call waiting calls
- Transfer audio to hands-free
- Toggle between multi-party calls.

The blnc IHF1000 car kit gives you seamless mobility to transition call audio from the mobile phone to the vehicle without interrupting the conversation.

¹ The blnc IHF1000 car kit supports Bluetooth hands-free profile. Your phone must support this profile.

² Certain advanced features including those listed may not be supported by all compatible Bluetooth enabled mobile phones, and/or the functionality of such features may be limited in certain phones.
