- **Does it Work With Bluetooth Phones?**

What Exactly Is A Booster?

The Ultimate Power Booster is a highly specialized amplifier that is much more powerful than your cell phone. It looks a lot like a stereo amp but its advanced electronics are very sensitive and make it able to receive small signals which would go undetected by most cell phones.

How It Works

The Ultimate Power Booster actually fools your cell phone into thinking that it is much closer to a cell site than it actually is, the result is a longer battery life, fewer dropped calls and a signal strength that's improved up to 1000%.

Will It Work With My Car Kit?

Yes! We guarantee that it will work with your car kit. In fact you can easily transfer this unit when you purchase a new vehicle. We also have units that can be used in buildings for your home or office.

Does it Work With Bluetooth Phones?

Yes! We guarantee that it will work with your Bluetooth enabled cell phone. It also works with Blackberry, Treo devices too! In fact this unit supports multiple users at the same time so your entire family or car pool can enjoy better reception.
