

Motorola M900 GSM Fixed Mobile Car Phone

➔ M900 – with voice activated number dialing!

➔ Key product features:

Voice activation command:

Utilize your spoken commands to activate your phone functions

- **Voice activated name dialing** – Up to 20 pre defined voice tags.
- **Voice activated number dialing** – Multi-Lingual support (English, French, German, Italian, Spanish, Hebrew).

• High resolution display:

Benefit from an enhanced illuminated graphic display designed for easy reading using 8mm character height, with an adjustable backlight and contrast display setting.

• Well-spaced keypad:

The large, illuminated tactile keys make it easier for you to dial when mobile.

• Full duplex hands-free phone with excellent audio:

High quality hands-free operation that enables you to communicate with ease.

• Data transmission:

GPRS connectivity enables you to transfer high-speed data such as: e-mails, faxes and files using Mobile PhoneTools® software support.

• Fast & easy installation:

Enjoy the luxury of installing a single fixed mount unit that includes a display, keypad and radio, making the installation process easier and faster.

Motorola **M900** is an ergonomically designed fixed mobile car phone, uniquely designed for the vehicle environment. With its voice activation feature, enhanced display screen and all round hands-free environment, the M900 is **the** mobile way to communicate.
